

CAMRT-MB Site Ambassador Network

Terms of Reference

The Site Ambassador program is a network of Medical Radiation Technologists who share a desire to inform and engage the membership through local activities and discussion. Site Ambassadors serve a critical role as a key contact between the CAMRT-MB Provincial Manager and the membership of CAMRT-MB. Your involvement as a Site Ambassador will be personally and professionally rewarding and contribute to the strength of the MRT membership across Manitoba. The Site Ambassadors will work under the leadership of the Provincial Manager.

As a Site Ambassador you are:

- A member of the CAMRT-MB
- Enthusiastic about your profession as a Medical Radiation Technologist
- Engaged in the activities of your workplace
- Keen to promote the values and activities of the CAMRT-MB

As a Site Ambassador you agree to:

Minimally:

- Receive correspondence and publications from the CAMRT-MB and bring it to the attention of your coworkers
- Act as a liaison between the Provincial Manager and the MRTs at your work site, or within your network.

Optionally:

- Look for opportunities for you and your coworkers to be involved in professional activities such as volunteering for CAMRT-MB, engaging in research, putting together a presentation for an in- service, nominating someone for recognition, organizing activities for MRT week
- You might take part in organizing local CAMRT-MB sponsored events. For example, a Lunch and Learn, social event, educational evening, reading club, site visit by provincial manager – do as much as you like. Your enthusiasm will help build our pride in our profession, expand knowledge and connect MRTs with each other.

Time Commitment

- Your time commitment for this role is your choice. Working with the Provincial Manager of CAMRT-MB, you will be supported to be as involved as you wish to be.
- Initial commitment is for a one-year term renewable by mutual agreement year to year. Upon resignation, the Provincial Manager will work with you to find a replacement Site Ambassador for your worksite.

You agree to share your contact email and basic profile information (discipline, work site, credentials, special projects) with other Site Ambassadors, as part of building the network and sharing ideas for how CAMRT-MB can make a positive impact for MRTs at your workplace. This information may also be posted on the CAMRT-MB website.
